

SM800

Easy way to keep indoor and outdoor areas litter-free

- Keeps your premises presentable without hard work

The hopper can stay in open position so it is easy to throw big items or empty a garbage bin into the hopper

The handle can be folded without tools for storage and easy transportation

Clever handle/hopper construction keeps the hopper in place even when stored in the upright position or hung on a wall

Quick and easy cleaning

5 times faster than a traditional broom, saving time and costs.

The SM 800 is a walk-behind sweeper. It's ideal for limited space or congested areas.

It's the quick clean-up solution for warehouses, small factories, car parks, retail stores, malls, schools, hotels, office buildings, bus/railway stations, convention centres, automotive, garages and in private homes.

The SM 800 picks up paper, leaves - even small screws, nails, bolts, cans, crown corks and cigarettes, etc. off outdoor spaces as well as indoor floors.

The very rugged corrosion proof frame makes this manual sweeper very robust. That combined with two main and side brooms, make this compact manual sweeper extremely efficient. Furthermore, the hopper is very light, strong and equipped with a carrying handle for easy emptying.

- Over throw system with two brooms gives excellent sweeping performance when sweeping large debris
- Large ergonomic handle with a soft grip makes the machine easy to manoeuvre
- Dual caster wheels in the front are positioned behind the side brooms and are therefore always in a clean swept area
- Large non-marking wheels make it easy to push and extremely manoeuvrable
- Rugged corrosion proof frame
- Large 34 litre hopper
- Quick and fume-free operation
- Mechanically simple, it's virtually service free. Maintenance is fast and simple

The handle can be adjusted to fit the operator height (3 positions)

Main broom can be adjusted in 4 different positions without the use of tools.

Reliability is also our mantra when it comes to service

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

Adjustable handle (3 positions) →

Large non marking wheel →

No tools required for adjusting the main broom →

Dual caster wheels behind the side brooms →

← Ergonomic adjustable handle with SoftGrip

← Large 34 litre hopper

← Side brooms can individual be adjusted in 4 different positions just by turning a knob

← Very rugged corrosion proof frame makes this manual sweeper very robust

Technical specifications

Description	Unit	SM800
Power source		manual
Productivity rate theoretical/ actual	m ² /h	3360/1680
Working width	mm	840
Main broom length	mm	450
Main broom diameter	mm	150
Side broom diameter	mm	260
Hopper volume theoretical/actual	litre	34/18.5
Dimensions max (L x W x H)	cm	130x84x103
Weight	kg	16

Specifications and details are subject to change without prior notice.
